

TRAINEE COMMUNICATIONS TECHNICIAN

WI-SKY are a locally owned and operated Internet Service Provider, providing high speed, reliable, unlimited data internet connections for all. Our dynamic, innovative team thrive in a can do, positive environment, our key focus being a great customer experience.

As part of our ongoing expansion, we are seeking a full time TRAINEE COMMUNICATIONS TECHNICIAN.

Working with other team members, some of the essential day to day activities of this role will include:

- In field repeater pole & house installations
- In field pole maintenance & upgrade activities
- Assistance in the manufacture of pole components

This is a 'hands on' role with on the job training to be provided. There will be an opportunity to undertake additional trade qualifications in parallel with wi-sky fieldwork.

Essential skills

- a particular focus on attention to detail, and quality workmanship
- a self starter, keen to learn & apply new skills
- reliable & diligent
- good time management

Desirable skills

- computer skills – Microsoft office
- current driver's license

This is an exciting opportunity for the right applicant. Whilst most work is to be locally based, limited over-night 'away work' will occasionally be undertaken for short periods. A competitive package to be negotiated with the right applicant.
